FOR IMMEDIATE RELEASE

## **ROMARK LOGISTICS ANNOUNCES NEW CORPORATE WEBSITE**

Elizabeth, New Jersey USA (January 7, 2010) – Romark Logistics, a nationwide provider of third-party, outsourced logistics services, has announced the launching of its new corporate website, [www.romarklogistics.com](http://www.romarklogistics.com).

The website was created to provide detailed information on Romark's 21<sup>st</sup> Century approach to contract warehousing, build-to-suit construction, packaging & manufacturing, transportation and technology offerings.

Romark Logistics specializes in contract warehouse logistics services, both temperature controlled and ambient, for finished product and raw material for the confectionary, food, beverage, pharmaceutical, gourmet and (natural) food industries.

By utilizing Romark's warehouse management experience, clients may experience lower costs, reduced risk exposure, reductions in the administrative burdens associated with managing a large labor force, detailed dashboards, KPI metrics and Best in Industry practices resulting in increased productivity and a more stable operating environment.

Romark Logistics also has the knowledge, experience and financial resources to custom-build a client's distribution center by providing land purchase, design service, site selection, regulatory and permit management and construction management.

Romark currently owns, has built and operates over 3 million square feet of distribution space nationwide.

For a complimentary analysis on how Romark can bring their proven successful logistics management solutions to a distribution center containing as few as 25 workers or upwards of 1000, please contact Rob Walther at [rwalther@romarklogistics.com](mailto:rwalther@romarklogistics.com) or 1 .908.662.6337.
