

FOOD LOGISTICS' 2015 TOP GREEN PROVIDERS

Sustainability manifests itself in a variety of ways throughout the food and beverage supply chain, from reducing food waste to 'leaning' transportation and operations and boosting renewable energy use. **BY FOOD LOGISTICS EDITORS**

This year's Top Green Providers represent transportation providers, 3PLs, cold storage providers, technology companies, pallet manufacturers and others key to supporting a more sustainable global food supply chain. Following are expanded profiles of some of these companies on the 2015 list.

Company Web site:	Alternative fuels: Energy	Material handling systems	Facility design	Lift trucks and related equipment	Lighting	Pallets, packages and related equipment	Reclamation; Recycling program	Refrigeration	Software & Technology	3PL	Transportation equipment (includes fleet, shipping, warehousing)	Transportation provider (includes food, etc.)	Water, Raw materials	Other
