

FOR IMMEDIATE RELEASE

Romark Logistics Named to *Food Logistics*' 2018 Top 3PL & Cold Storage Providers List

WESTFIELD, NJ – August 16, 2018 – *Food Logistics*, a national trade publication that covers the movement of product through the global food supply chain, has named Romark Logistics to its **2018 Top 3PL & Cold Storage Providers** list.

“We are honored to continue to receive recognition from business-to-business media for our work,” said Marc Lebovitz, company President. “The food and beverage industry has been an integral part of our business for more than 60 years. We are pleased that *Food Logistics* sees Romark Logistics and its affiliated companies across the country as a leader and innovator in the supply chain and logistics sectors. That includes our ongoing commitment to some of the leading food, beverage, commodities, pharmaceutical, supplement, vitamin, automotive, electronics, and retail customers in the world to provide high quality, value-added products and services.”

The **Top 3PL & Cold Storage Providers** list serves as a resource guide of third-party logistics and cold storage providers whose products and services are critical for companies in the global food and beverage supply chain.

“Leading 3PLs and cold storage providers that support the global food supply chain are increasingly tasked with providing more value for their customers while simultaneously controlling costs,” notes Lara L. Sowinski, editorial director, *Food Logistics*.

“Companies such as Romark Logistics, that earned a place on *Food Logistics*' **2018 Top 3PL & Cold Storage Providers** list, demonstrate their ability to meet the current marketplace demands with the latest innovations and technology combined with customer care and collaboration,” she added.

Romark Logistics and its affiliated companies have grown to approximately seven million square feet of industrial space throughout the country. That growth is due, in large measure, to Romark Logistics commitment to being “customer-driven and results-focused,” said Amy Lebovitz, the company’s Executive Vice President.

“Our tagline ‘*Personalized Service...Always*’ truly highlights our team’s strategy to create Romark-able solutions for our valued customers,” she said. “These are solutions that are customized and innovative, with measurable results. We are pleased that *Food Logistics* is recognizing our work.”

Combining years of best-in-class supply chain management with cutting edge automation and fulfillment technologies, Romark has a proven track record of helping its customers achieve greater efficiency and cost savings throughout their supply chain.

Romark Logistics will be included in this year’s **Top 3PL & Cold Storage Providers** list, appearing in the August 2018 issue of *Food Logistics*, which can also be found online at www.foodlogistics.com. In July, Romark Logistics was also named to the Top 100 list for *Inbound Logistics* magazine.
